### **FOREIGN POLICY AND 2016 ELECTION**

**Results are based on telephone interviews with a random sample of  $\pm 1,016 \pm$  national adults, aged 18+, living in all 50 states and the District of Columbia, conducted May 6-7, 2015. For results based on the total sample of National Adults, the margin of error is  $\pm 4$  percentage points at the 95% confidence level.**

**Interviews are conducted with respondents on landline telephones and cellular phones, with interviews conducted in Spanish for respondents who are primarily Spanish-speaking. Each sample of national adults includes a minimum quota of 50% cell phone respondents and 50% landline respondents, with additional minimum quotas by time zone within region. Landline and cell phone numbers are selected using random digit dial methods. Landline respondents are chosen at random within each household on the basis of which member had the most recent birthday.**

**Samples are weighted to correct for unequal selection probability, non-response, and double coverage of landline and cell users in the two sampling frames. They are also weighted to match the national demographics**
